The Neuroscience Centers of Florida Foundation (NSCFF) is pleased and honored to announce the addition of Ms. Thelma Gibson to their Honorary Board.

A native of Coconut Grove, Ms. Gibson began her career as a nurse, working at Jackson Memorial Hospital and various other health organizations in South Florida and Washington, D.C. She is the founder of the Dade County Women’s Chamber of Commerce, and as a result of her long-standing dedication to healthcare, has received many prestigious awards and distinctions throughout her career. She is noted for sponsoring [The Gibson Health Initiative](#) with the purpose of providing medical testing, education, and support for traditionally underserved communities. She is an outstanding community leader, a published author, a [patron of the arts](#), and a supporter of NSCFF’s coordinated & comprehensive health care delivery model. We are honored to welcome her to the company of our esteemed Honorary Board.

Ms. Gibson will be supporting NSCFF in its efforts as a participating organization in the Miami Foundation’s 3rd Annual Give Miami Day. This year, the 24-hour virtual giving event will take place on Thursday, November 20th. NSCFF is a 501(c)3 nonprofit organization based in Miami, Florida.

#####

About Neuroscience Centers of Florida Foundation: The Neuroscience Centers of Florida Foundation, Inc. (NSCFF) is an IRS designated, 501(c)(3) not-for-profit organization, established to improve healthcare delivery and address the unmet needs of patients afflicted with chronic neurological degenerative diseases concentrating on Alzheimer’s Disease, Multiple Sclerosis, Parkinson’s, and Stroke. Our organization’s comprehensive team approach to care is uniquely poised to answer to a patient’s medical and non-medical issues. As a comprehensive care organization, NSCFF aims to provide diagnosis, treatment, disease management, support services, and education to patients and their caregivers to keep patients at home, at work, and out of the hospital.

Through our network of stakeholders and supporters, our focus on collaboration has enhanced access to already proven methods of treatment while we implement innovative concepts to patient centered, disease specific, comprehensive, and coordinated healthcare delivery in our community.
